

Dynamic Edge COVID Protocol

Effective April 15, 2022: The Connecticut Department of Public Health has lifted the mask mandate for physical therapy offices.

Masks are optional in our office. If you would like your physical therapist to wear a mask while working with you, please ask before your appointment begins.

If you have any symptoms of COVID or known exposure, please cancel your appointment and get tested.

If you have been diagnosed with COVID, please refrain from coming to our office for 5 days after a positive test result or when symptoms have fully subsided.

Travel Policy: If you have traveled anywhere by plane, you must wear a mask in our office for 5 days from your arrival home.
